Statement on Persistent Organic Pollutants (POPs)

Based on our current state of knowledge and on information provided by our suppliers, E-T-A Elektrotechnische Apparate GmbH hereby declares that its products, including circuit protection devices and related accessories, do not intentionally contain substances listed in:

- Regulation (EU) 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants
- Regulation (EU) 2022/2400 amending Annexes IV and V to Regulation (EU) 2019/1021.

Consequently, substances falling within the scope of these regulations are not expected to be present above the applicable limit values.

While the above-mentioned substances are not intentionally added, the presence of trace amounts (e.g. due to impurities) in components supplied by third parties and used in our products cannot be completely excluded.

This declaration is based on supplier information and internal assessments; the absence of such substances has not been verified by analytical testing.

Yours sincerely,
E-T-A Elektrotechnische Apparate GmbH
